To: Neighbors of building 20,
PLEASE READ THOROUGHLY.

Greetings neighbors,

It has come to my recent attention that there is a tremendous level of sound traveling through our building. To this I have concluded that you (my neighbors) are dinosaurs. I would like to express my sympathy towards how it must feel to have a large head and small arms. I would like to suggest the following regulations take effect.

- Please refrain from playing football indoors.
- Please do not play catch with your furniture.
- If you insist on wearing a chicken suit, please do not run around making duck sounds at the same time... or ever.
- I understand that humans sometimes have the urge to Yodel as loud as they can. Please don't.
- I understand kids are noisy as well, I was one once. Please use a muzzle.
- There is a cat that hangs around outside every morning, someone should really take care of that before it starts looking to us humans as food.
- Please do not fart in the elevator.
- Please do not perform exorcisms late into the evening.

If you are unable to adhere to these suggested rules, I would advise seeking medical help. Have a wonderful day.

Sincerely, your concerned neighbor,

Neighbor
