Abstract

This is where you put your abstract. Summarize the paper/article in 250 characters or less.

I. Introduction

Consider a Potato. Thoroughly consider this potato. Adapt this potato to the topic at hand. Feel the potato. Be the potato [2].

II. Section header

Put some things here (the body of the paper).

III. Another Section header

Perhaps have multiple sections with lots of things? All of the things? Depends on the paper I suppose.

III. Conclusion

Make a meaningless meaningful conclusion to enlighten the world based on that majestic potato.
